## Environmental Protection Act Loi sur la protection de l'environnement

NOTICE IS HEREBY GIVEN that public comment is being requested from all interested parties on the proposed interim drinking water objective for tritium.

The Advisory Committee on Environmental Standards was established by Order in Council 1138/90 to advise the Minister of the Environment with respect to standards for environmental contaminants following consideration of public input received and pertinent scientific, legal, economic and socio-cultural issues.

The Ministry of the Environment and Energy has prepared a rationale document recommending that the new interim Ontario Drinking Water Objective for tritium be revised to 7,000 becquerels per litre. The current drinking water objective (maximum acceptable concentration) is 40,000 becquerels per litre.

The Advisory Committee on Environmental Standards is particularly interested in the public's views on the suggested level, specifically with respect to the following:

1. Is the proposed standard acceptable?
2. If not, what is the basis for finding the proposed level unacceptable?
3. Do you have an alternative level to propose and what is your rationale for suggesting this level?

Comments will be received until March 10, 1994.

		<b>NOTE:</b> A person who requests a public interest hearing must, within thirty-nine days of this publication, serve on the Ontario Highway Transport Board a document that makes out a written case to the Board that the granting of the operating authority applied for would be likely to have a significant detrimental effect on the public interest using the criteria set out in subsection 10 (1) of the Truck Transportation Act, R.S.O. 1990, Chapter T.22, and that the request is not frivolously made.

## ONTARIO HIGHWAY TRANSPORT BOARD

IN THE MATTER OF THE ONTARIO HIGHWAY TRANSPORT BOARD ACT, R.S.O. 1990, CHAPTER O.19

AND IN THE MATTER OF THE MOTOR VEHICLE TRANSPORT ACT, 1987, S.C. 1987, CHAPTER 35,

AND IN THE MATTER OF THE PUBLIC VEHICLES ACT, R.S.O. 1990, CHAPTER P.54,

AND IN THE MATTER OF applications by and certificates granted to various Quebec based operators for extra-provincial operating licences,

### NOTICE

The following Notice of Motion has been filed with the Ontario Highway Transport Board.

#### Notice of Motion

The Ontario Motor Coach Association will make a motion to the Ontario Highway Transport Board at a time to be determined by the Board at its Chambers, 151 Bloor Street West, 10th Floor, Toronto, Ontario.

THE MOTION IS FOR an order pursuant to Section 16 of the *Ontario Highway Transport Board Act*, R.S.O. 1990, C. O.19:

- revoking or suspending certificates issued to various Quebec based operators, as listed in Schedule "A" to this Notice of Motion; (Schedule "A" is on file with the Ontario Highway Transport Board);
- for an Order directing a rehearing of the said applications;
- for a further Order adjourning consideration of any further applications filed by Quebec based operators, as listed in Schedule "B" to this Notice of Motion, until any re-hearing granted pursuant to this motion be concluded, and specifically an order that the hearing of the applications of Les Autobus Boulais Ltee, Autobus Viens Inc. and Autobus Pierre Heneault Inc., o/a Autocar Bois-Frans Enr., scheduled to be heard commencing January 25, 1994, be adjourned; (Schedule "B" is on file with the Ontario Highway Transport Board);
- or for such further Order as may seem appropriate

#### THE GROUNDS FOR THE MOTION ARE:

- The circumstances under which the certificates were granted has changed in that the Ontario Motor Coach Association did not oppose the said applications and other Ontario operators either withdrew their opposition to the applications or did not oppose the applications on the basis of an understanding that the six months residency rule in Quebec was a formality which did not constitute a significant competitive impediment to Ontario based carriers and based on an undertaking of the Association des Propriétaires d'Autobus du Quebec and certain Quebec based carriers that they would take steps to attempt to have the six months residency requirement eliminated so that Ontario carriers would not be at a competitive disadvantage in applying for authorities in the Province of Quebec.

This replaces terms that were published in the Ontario Gazette of October 2nd, 1993.

## Environmental Assessment Act Loi sur les évaluations environnementales

### NOTICE OF ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT AND NOTICE OF APPROVAL TO PROCEED WITH THE UNDERTAKING

RE: An Environmental Assessment for the New Subway Storage and Maintenance Facility (Wilson Expansion 1993)

Proponent: The Municipality of Metropolitan Toronto, and the Toronto Transit Commission (TTC)

EA File No.: TP-TT-02

TAKE NOTICE that the date for receipt by me of submissions or requirements for a hearing on the above Environmental Assessment and/or its Review, provided for in the *Notice of Completion of Environmental Assessment Review*, dated October 26, 1993, expired on November 26,

1993. I received no requirements for a hearing by that date. I do not consider it advisable to require a hearing.

#### ACCEPTANCE OF THE ENVIRONMENTAL ASSESSMENT

Having considered those matters set out in Section 8 and pursuant to Section 9, I accept the Environmental Assessment.

#### APPROVAL OF THE UNDERTAKING

Under Section 13 of the Act, before the decision on approval to proceed with the undertaking can be made, the proponent has the opportunity to require a hearing by the Environmental Assessment Board. The proponent has waived this right.

Having considered the purpose of the Act, the Environmental Assessment of the undertaking as accepted, and the submissions received, I hereby give approval to proceed with the undertaking subject to the following terms and conditions:

1. Except as otherwise provided by these conditions, the undertaking shall be carried out in accordance with the provisions of the Environmental Assessment (EA) which are incorporated herein by reference.

#### Soils Management, Decommissioning, and Stormwater Management

2. Prior to the commencement of the construction of any building associated with this undertaking, the proponent shall prepare and submit, to the satisfaction of the Director, Central Region, Ministry of the Environment and Energy (the Director), a detailed site plan showing the location and all other design aspects of the maintenance facilities normally shown on a site plan, including storage facilities for chemicals.
3. Prior to any site excavation the proponent shall obtain the approval of the Director for a Material and Soil Management Strategy, to be implemented with such changes as are approved from time to time by the Director. The Material and Soil Management Strategy (the Strategy) shall include the following components as a minimum.
  - a) A history of the site, an environmental audit of the site, and an analysis of the material and soil from each borehole and the borehole information to confirm that the material and soil are suitable for the method and location of disposal proposed.
  - b) The approval of the Director for the methods and locations of disposal.
  - c) If any material or soil is proposed to be disposed of at a Metropolitan Toronto and Regional Conservation Authority (the Authority) lakefill site the proponent shall provide the Director with written confirmation from the Authority before excavation that it is prepared to accept the soil.
  - d) The provision to the Director of copies of the waybills confirming receipt of the material and soil at any disposal site other than an Authority lakefill site.

#### Noise and Vibration

4. The noise impact for the undertaking shall be reassessed in detail at the design stage of the project. The reference document for the assessment shall be the MOEE/TTC Noise Protocol for Noise and Vibration Assessment for the Proposed Yonge-Spadina Loop. The report of the assessment shall be submitted to the Director, MOEE Approvals Branch for approval.

#### Public Safety

5. The TTC will work with the Metropolitan Toronto Police during facility design, site plan approval and during the creation of operating (emergency response) plans to ensure public safety.

#### REASONS

The reasons for giving approval are:

1. The Environmental Assessment document identifies a need for the proposed project, and the proponent has carried out the planning of the undertaking in accordance with the requirements of the *Environmental Assessment Act*.
2. The Government Review Team has indicated no outstanding concerns with this project. The concurrent public review of the environmental assessment did not identify any outstanding concerns.
3. I have not received any submissions on requirements for a hearing after giving the Notice of Completion dated October 26, 1993. I am not aware of any outstanding issues with respect to this undertaking which suggest that a hearing should be required.

## TABLE OF REGULATIONS

The Table of Regulations shows the regulations contained in Revised Regulations of Ontario, 1990 and those made after December 31, 1990 and before January 1, 1994. It also shows the amendments to those regulations.

Most of the listings are in English only. Some regulations have an official French version. Bilingual regulations are indicated by a bilingual title.

Occasionally numerical, typographical or other clerical errors are made in the publication of the text of regulations. Corrections are published in *The Ontario Gazette*. A schedule of the dates these corrections were published is included at the end of this Table.

The dates on which regulations were published in *The Ontario Gazette* are set out in a table immediately following this Table.

The abbreviation "Rev." means revoked.

The abbreviation "Exp." means expired.

## TABLE DES RÈGLEMENTS

La Table des règlements énumère tous les règlements contenus dans les Règlements refondus de l'Ontario de 1990 ou pris après le 31 décembre 1990 mais avant le 1<sup>er</sup> janvier 1994. Elle indique également les modifications apportées à ces règlements.

La plupart des entrées ne figurent qu'en anglais. Quelques règlements ont une version officielle en français et leur titre est indiqué dans les deux langues.

À l'occasion, des erreurs d'écritures, notamment d'ordre numérique ou typographique, se glissent dans le texte des règlements qui sont publiés. Des corrections sont publiées dans la *Gazette de l'Ontario*. Les dates auxquelles ces corrections ont été faites figurent dans l'annexe qui se trouve à la fin de cette Table.

Les dates auxquelles les règlements ont été publiés dans la *Gazette de l'Ontario* figurent dans la table qui suit celle-ci.

L'abréviation «Rev.» indique que le règlement est abrogé.

L'abréviation «Exp.» indique que le règlement est périmé.
